London, ON N6A 1K7

Dear Mr. Moss,

As an international healthcare system, Shriners Hospitals for Children – Canada is committed to providing high quality care to the patients and families we serve, along with protecting the dedicated staff who, every day, help deliver our mission. As a result, we have been closely monitoring the latest medical information on COVID-19. We have also been monitoring the stance taken on this issue by public health agencies, our affiliates and various constituent organizations.

Based on this information, for the following 90 days, Shriners Hospitals for Children – Canada will be postponing all external conferences and activities scheduled to be hosted at the Hospital that are not directly related to providing patient care.

We recognize the impact this may have; however, the decision has been made in the best interest of our patients and families, our medical staff, employees, volunteers and those in our community.

On behalf of the Board of Governors, we thank you for your cooperation and understanding during these uncertain times.

We will be in touch as circumstances evolve. We look forward to working with you in the near future.

Best regards,

Nathalie Kamel
Director, Marketing, Communications & Donor Development
